WORK EXPERIENCE

Web Designer & Developer / Graphic Designer-Part-time

Australian Branding & Social Media Agency | 2026 – Present

- Design and develop responsive websites and landing pages using **Wix**, with a focus on usability, visual consistency, and responsive layouts.
- Create digital assets, website graphics, social media posts, reel covers, marketing materials, and other branded visual content.
- Develop brand-consistent graphics and social media packs based on client branding and creative direction.
- Create promotional and advertising graphics, including **Facebook ad creatives** and marketing assets.
- Design UI/UX interfaces and digital layouts using **Figma**, focusing on visual hierarchy, usability, and user experience.
- Use **Canva, Photoshop, Illustrator, and Figma** to produce polished creative assets efficiently.
- Work with client-provided content and brand guidelines to create cohesive visual materials across websites and social media.
- Use AI-assisted tools including **ChatGPT, Claude, and Gemini** to support creative ideation, content development, and design workflows.
- Manage and update client website content and support their online presence across digital platforms.

Web Designer / Digital Designer — Inner Beauty Lennox

Freelance / Client Project | 2026

- Designed and updated responsive website pages with a focus on clean visual presentation, usability, and mobile responsiveness.
- Created and organized website content, page layouts, service information, and supporting visual assets.
- Worked on website structure and content organization to improve navigation and the overall user experience.
- Created branded graphics and digital assets aligned with the business's visual identity.
- Updated website content and visual elements based on client requirements and ongoing project needs.
- Used **Wix, Figma, Canva, Photoshop, and other design tools** to develop and refine digital content.
- Applied UI/UX principles, visual hierarchy, typography, spacing, and responsive design throughout the website.
- Assisted with website content migration, CMS organization, and aftercare/resource page updates.

IT Intern – Web Development and UI/UX Design

Torres Technology Center Corporation | 2026

- Developed responsive web and mobile interfaces for monitoring and response systems.
- Assisted in system development, testing, deployment, and documentation activities.
- Managed and validated application data to maintain data accuracy and integrity.
- Provided technical support and resolved user concerns during system implementation.
- Collaborated with developers and stakeholders to identify improvements and enhance user experience.

AI Data Annotator / Contributor

CrowdGen by Appen | Remote | 2025

- Annotated and evaluated data to support AI model training and improvement.
- Followed project guidelines to ensure data quality and consistency.
- Reviewed AI-generated content and provided accurate classifications and feedback.
- Maintained productivity and quality standards while working on remote annotation projects.

PROJECTS

ONLOOK: Monitoring and Response System for Missing Persons, Homeless Persons, and At-Risk Individuals

Front-End Developer / UI/UX Designer | 2025–2026

- Designed wireframes, prototypes, and user interfaces using Figma.
- Developed responsive web and mobile interfaces for a monitoring and response system.
- Improved usability and accessibility through user-centered design principles.
- Participated in system testing, debugging, and documentation.
- Collaborated with team members throughout the Software Development Life Cycle (SDLC).
- Created high-fidelity UI designs and interactive prototypes using Figma.

FILMTRACK WEBSITE

Front-End Developer | 2023–2024

- Developed a movie tracking platform that allows users to browse movies and manage personal watchlists.
- Designed responsive interfaces optimized for desktop and mobile devices.
- Implemented user-friendly navigation and interface components.
